
Robbie Dupree

The new “Robbie Dupree and Friends” show features an array of Robbie’s hit songs (“Steal Away,” “Hot Rod Hearts”) along with new material from his latest album, *Arc of a Romance*. Robbie is joined by an all-star band and backup vocalists featuring David Spinozza, Jonathan Maron, Oli Rockberger, Doug Yowell, Manuel Quintana, Anthea White and Gabriel Sterbenz.

The show has been known to feature surprise guests. Following Robbie’s 2010 appearance on NBC’s *Late Night with Jimmy Fallon*, Jimmy turned up at an especially memorable NY show. The TV host has been a fan for many years and joined the band with backing vocals on his longtime favorite songs.

With the resurgence of 1980s songs and styles, Grammy® nominated “Steal Away” has been in licensing demand. Recently it has been featured in the films *I Love You Philip Morris* and *MacGruber*, along with a number of forthcoming commercials.

Robbie currently is based in Woodstock, NY and is touring internationally.
